*Re: Endorsement for Establishing Right of Way Control
Intersection: 32nd Ave W. & W. Raye St., Seattle*

Dear Mr. Craft:

After listening to your presentation at our club's regular meeting on April 9, 2015 regarding the inadequate road controls and lack of safety for pedestrians, bicycles, and vehicles at the intersection of 32nd Avenue West and West Raye Street in Magnolia – the Rotary Club of Magnolia's Board voted on May 13, 2015 to endorse SafeInMagnolia's efforts in petitioning the City of Seattle to take action and establish the Right of Way Control (four-way stop) for that intersection in order to improve safety for pedestrians, bicycles, and traffic. Our Board's support of the motion to endorse the establishment of the Right of Way Control was unanimous.

Please do not hesitate to contact me with any questions or concerns you or the City of Seattle may have.

Sincerely,

John Ochsner 206-281-1660
President,
The Rotary Club of Magnolia
